

PAX-KENT INTERNATIONAL L.L.C (PKI) is the representative of SF MARINA in the UAE. The concrete pontoons are manufactured by our sister company PKI Marina FZ LLC in the UAE. SF MARINA has produced pontoons in Sweden since 1925, in Saudi Arabia since 1987 and in the UAE since 2004.

PKI has successfully produced and installed numerous pontoons and completed most installations on a turn-key basis.

Connectors, gangways, mooring fingers, cleats etc. are part of SF MARINA's product range. When we need electrical and mechanical components and accessories for the installation of services we supply from specialised international manufacturers.

PKI Marina is the Agents for :

- ✓ TallyKey® Service pedestals
- ✓ KECO, Pump-Out systems
- ✓ Seaflex Mooring Systems
- ✓ ShorePort Jet Ski docks
- ✓ Aister Marinas, Aluminium pontoon system, used in combination with the SF MARINA Type 31 concrete floats

We look forward to answer you with your projects and assure you of our outmost cooperation.

Applications

Commercial fishing harbours

Floating fuel docks

Ferry Landings and Jetties

Fish farming projects

Pontoon bridges

Floating buildings

Our range of breakwater pontoons includes pontoons of 8m to 10m in width and up to 20m in length. The connectors for these pontoons are designed for a breaking load in excess of 250 tons per joint.
